THE most safe, effectual and economical rem for diseases of the Human Constitution, that has ever been dimmered.

These Pills are composed entirely of materialsextracted from Medical Plants, and are warranted not to contain one particle of moreury, or any mineral substance Dr. Kingley, the inventor of this valuable medicine, from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the functions of the liver; or in other words on increased or diminished secretion of the Blie.

So well is this understood, that it is common for persons to say when they feel unwell that they are bilious, meaning that they have too much bile in thestomach. On the other hand, when the flaw of bile is diminished, the process of digestion is imperfectly performed, the parient be differed weak and emaciated, because nourisbutent contained in the bod taken into the stomach is not properly extracted, and the food is ejected in a crude state. Dr. Kingley is confident that the famous Hygean Pheory, so called, that "impurity of the blood is the cause of all diseases." s a great absurdity. Every one who reflects upon the subject a moment, will perceive that impurity of the blood is a secondary, not a primary complaint the effect, and yet the cuise of the disease. —When, the functions of the liver are derailgod, and the flow of hile increased, it is often to keep up by the absorbent vessels and curried into the circulation, and becomes mingled with the blood as in Jaindice, when the patient shows it in his countenance. Now this impurity of the blood is caused by an increased flow of the bile, and to remedy it you must entreet the

secretion of the liver and restore it to a healthy state. Dr. Kingley has spent much time in experimentiing with different vegetable medicines, for of the liver, and now offers, his Universal Family Pills as the best, most convenient and cheapest medicine that can be prepared for general use; and in offering them to the puldic, he is actuated more by benevolent than pecuniary motives, as the price

of the medicine, will show, Dr. Kingley flatters himself that his long experi-

menting with vegetable methernes, has exabled him. to discover the time and only substitute answering bined with their cathartic or operative quality, so, that they not only cleanse the sigmach and howels by purging, but they regulate the liver. change the morbid secretions, strengthen the digestive organs; purify the blood, invegorate the circulation, and give one and energy to the nervous system.

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dasc. They can be taken with salety by persons of any age, and the feeble, the infirm, the neryous, the delicate, are strengthened by their operation, because they clear the system of bad humors, quiet nervous irritabilities and restlessness. from whatever source, and invariably produce sound
